Kapitel 3: Wishes

Wishes

I wish
you would love me
but it is more
than I could wish

The rest of my life
I will live for your love
cause nothing I could do
is enough for it

So your love is more
than I should get
for all the things
I've ever done

It's in your hand

Let me die without
the magic of your love
or let me live
the love of my life
